

## ABOUT US

Bug Express Pest Control was established with the vision of becoming a small, West Texas family-owned business. We grew one customer at a time, one friend at a time, and good referral upon good referral. We have become the area leader in termite home and commercial inspections. From that position, Bug Express has been able to have the strength to launch other valuable services such as termite treatments, commercial and residential pest control. From the most humble beginnings, we continue to grow as we diligently meet the needs of our customers.

Bug Express Pest Control has over 50 years of combined knowledge and experience in pest management. We believe in providing unmatched service with uniformed technicians and full service capabilities. We offer complete, quality assured programs for manufacturing, food processing and distribution, management companies and their apartment complexes, health care facilities and various other retail and commercial properties.

Bug Express Pest Control offers a variety of other full service capabilities. We provide pest management services for every type of need including insect, rodent, stored product pest, bird, termite, mesquite lawn care, weed control and other general pest control services. We, also, boast the most trained and experienced technicians in West Texas. The key to success in any pest management program is directly dependent on the quality of people who are performing the service.

Bug Express continually trains and educates our technicians with the most advanced pest control products and techniques available. Keen attention to the quality of technicians we hire has enabled us to keep some of the best pest control people in the business.

So give us a call or come by and see us. We would be happy and grateful for your business. We appreciate the support in the past and look forward to serving you in the future.

## PEST CONTROL EXPERTS

## RESIDENTIAL PROGRAMS

Your home is a safe haven for you, your family, and your pets – not the ants, termites, cockroaches, mice and other pests that try to invade it.

Bug Express is the best option for making sure pests don't enter the areas where you and your family live, sleep and prepare food.

Our staff's extensive training and advanced technology focus on attacking any pests already in your home and prevention measures to help control unwanted invaders in the future. Each of our technicians is certified and background checked. We have extensive training and experience with a variety of pests including:

- Termites
- Bed bugs
- Ants
- Roaches
- Rodents such as mice and gophers
- And many, many more common pests that may be sharing your home with you.

All of our residential pest control services include:

- Free Pest Estimates
- Free Termite Inspections
- One Time Service & Flexible Service Plans
- Free Bird Consultation
- Guaranties on all of our work

If you need help with your pest control problem, give us a call and one of our representatives will help you.

## COMMERCIAL PROGRAMS

Our dedicated commercial division specializes in providing careful pest control solutions to businesses, institutions, and commercial establishments.

Our program effectively targets nuisance pests that are common to businesses including mice, rats, cockroaches, and ants. No matter what type of business or industry, our commercial pest control services are customized to suit the needs and budget of individual companies.

**We have proven experience in serving the following industries:**

- Restaurants
- Condominium Associations
- Commercial Warehouses
- Food Processing & Distribution Centers
- Apartments
- Healthcare Facilities
- Hotels & Motels
- Property Management
- Assisted Living Facilities

To get started, call us for a free, no obligation estimate at: **325-653-0069.**

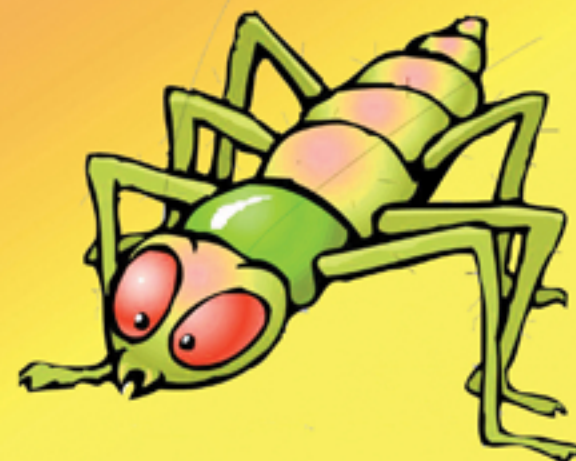

## The True Cost Of Professional Pest Control

Some people may see professional pest control as a luxury they can do without. They may try to overcome potential problems on their own by purchasing retail pest control products.

When treating for pests, Bug Express takes into account proper pest identification, biology and habits.

Applying retail products without the benefit of correctly identifying pests or knowing their habits may lead to a much bigger pest problem. In the end, the cost can be far greater than it would have been if a pest professional had been called initially. In reality, enlisting the assistance of Bug Express to help protect your home from pests is one of the smartest financial moves you can make.
