Private In-Home Training Programs

Obedience Training

Basic (on-leash) obedience lessons are available. The program consists of one-hour lessons scheduled at your convenience.

Your dog will learn to walk on a leash without pulling, heel, sit, down, stay, come on command and door and gate manners. Problem behavior such as jumping, chewing, barking, etc., will be corrected. The Program is tailored to your dog's specific breed and needs. Intermediate obedience is also offered.

Puppy Kindergarten

This important program consists of one-hour lessons, and is for puppies up to 5 months of age.

This period is the most critical time during the life of your dog! If proper training and socialization occur now, you will have a happy and obedient dog in the future.

The program is tailored to your needs and will include; how to set up the proper rank structure; socialization; housebreaking; stopping unwanted behaviors such as nipping, chewing, and jumping up; and beginning obedience work.

Doggie Tune-Ups

This service is for dogs that have had obedience training in the past, but have gotten a little rusty! Cherrie will evaluate you and your dog together and give specific advice for any problem you may be having with your dog.

Training by the Trainer

This program is for owners who want their dog trained by Cherrie. This is a good program for people who would like their dog trained at home, but do not have the time to participate in lessons and practice with their dog. Cherrie will train your dog at your home, and when the training is complete, she will provide follow-up lessons so that you understand how to work with your trained dog.

Behavior Modification

The elimination of behavior problems begins with obedience training, however, sometimes just a session or two with a professional trainer is all that is needed. This program is for owners who are having specific problems with their dog, such as aggression, jumping, barking, chewing, biting, digging etc.

Housebreaking 101

Are you going nuts trying to housebreak your dog or puppy? There is a surefire way to teach your dog to NEVER eliminate in the house. Cherrie will share invaluable tips and advice to end this annoying problem forever!

About Cherrie

Cherrie has two dogs; an Aussie named Footee and a Pug Mix named Ebony.

Cherrie likes to do performances and has done many

performances for schools, hospitals, assisted living facilities and special events.

Cherrie has taught her dogs to ride skate boards, do a mail box routine, play basketball, put their toys away, and numerous other things.

Cherrie has training experience in many stages (puppy through advanced) and offers specialized training in the home. Obedience training addresses your relationship with your four legged companion. Experience a unique, humane, and relationship building form of training. Call for a consultation.
