Termites

Barfield Home Inspections also provide termite treatments for residential and commercial buildings.

We apply a chemical barrier around the building to prevent termites from destroying your property and we kill the termites. Barfield Home Insections will thoroughly inspect your property and will provide you with a detailed report as to the type of treatment best suited for your condition.

Call Barfield Home Inspections for more information. Let us help you TERMIDOR* protect your home!

New Construction

Barfield Home Inspections can provide phase inspections on New Construction. Foundation (pre-pour). Framing/Mechanical, and Final

Septic Systems

Barfield Home Inspections is licensed to perform On-Site Sewage System Inspections on all types of systems.

Water Wells

Barfield Home Inspections can provide inspections on all types of water wells and we sample upon request.
